We understand your concerns regarding the Corona Virus, and as everything is changing so quickly. We are doing our best to keep you updated. Please keep checking the website and Facebook for updates.

I have spoken to many TS specialists over the last few days, to double-check if there is any extra care required for those with TS. They have provided me with some information on Cardiac Risk.

The reassuring message is the girls with TS, like the children in the normal population, are coping well.

However, it is wise to follow the NHS guidelines and if you are part of the high-risk groups on the NHS websites. You should follow them and self-isolate if required.

We have a number of helpful resources available to download too.

We are aware that we may have no choice but to postpone or cancel TSI 2020 a decision will be made by 1st of May 2020 as we will have had a chance to consider all our options by then. Please bear with us.
