

Recruitment Update

We now have 6 randomised participants in POISE and have a further 8 consented participants completing their wash-outs and awaiting DEXA scans. Congratulations go to UCLH (1) and Aberdeen (1), who have recruited their first participants, and Liverpool (4) for their randomisations since the previous update. Its really great to see the numbers starting to increase – **great work!!**

All site meeting

On Friday 09 December we held our first very successful All Site meeting and there was a great turn out – thank you to all of you who attended and engaged. For anyone who was unable to make it, we recorded the session and a link has been shared by email. We are planning to hold another meeting in February 2023 so please keep an eye out for the invite coming through.

Screening log – check your version!

Just a reminder that a new version of the screening log was issued earlier this month. The correct version is now V1.1_01Nov2022. This replaces V1.0 14 June 2022 which can now be superseded.
