Recruitment update – and we are off!!

Congratulations go to the POISE team at Liverpool Women's Hospital on randomising their first recruit in October. There are also a number of recruits who have been consented and are waiting on their wash-out and DEXA scans so more should follow soon – **Fantastic work!!**

Screening Data

Please ensure you are adding any patients you approach about the study to the log. Please send a copy of your log and transfer any data into the REDCap system at the end of each month.

REDCap database assistance

Please don't hesitate to get in touch with us for further training on the POISE database – we are also here to help with any queries you may have. Just drop an email to the POISE inbox. We also apologise for REDCap being down on several occasions recently.

Twitter

The POISE study has its own twitter account now, [@poisestudy](https://twitter.com/poisestudy). Please take the time to follow us. We will be sharing study good news and updates and general POI tweets through the channel.
